

## ELEARNING PARTNERSHIP DIRECTOR

**About Us:** Founded in 2013, Labor Solutions, a social enterprise, leverages technology to engage and educate workers. Our [data](#) sets bring needed transparency to reduce risks throughout workforces and the supply chain. Our tools and services are created using user-centric & inclusive design to engage and connect with the entire value chain of stakeholders.

Through our tools, Labor Solutions aims to improve workers' wellbeing, health and financial functions both at workplace and at home. Labor Solutions' flagship product is WOVO, a mobile phone-based worker voice and worker wellbeing tool with more than 1.5 million users and availability in 25 countries and 19 languages.

Our WOVO Learn product is growing rapidly, and we are looking for a qualified **eLearning Partnership Director** to bridge the gap between clients and the eLearning development team. In this role the eLearning Partnership Director will primarily be to oversee the operation and development of the eLearning materials and work with clients, external and internal stakeholders to create eLearning content for businesses, managers and factory workers.

### What you'll be doing:

- Own the growth strategy for our eLearning product, providing strategic and operational management and leadership of the eLearning team
- Build and manage partnerships with subject matter experts and organizations + other relevant stakeholders
- Work with business development, marketing & sales, and project management to identify curriculum requirements, set priorities, and roadmap
- Lead and be fully responsible for the inhouse and external eLearning team to deliver the expected quality output as per client needs
- Work with the marketing team to build product packages & the marketing collaterals
- Work with sales team for presales activities
- Contribute directly to the development of eLearning content and taking full ownership on the eLearning materials produced
- Implementing quality control practices to ensure that all materials meet the desired standards
- Analyse eLearning results, provide written reports and analysis and own the reporting of these results for clients
- Work with the tech and innovation team to constantly improve the eLearning delivery, design and reporting to meet client needs and learner realities
- Work with clients to solve complex eLearning delivery and implementation challenges, such as surveying illiterate workers
- Respond to eLearning-based proposals
- Ownership of P&L to drive revenue generation and manage costs for eLearning projects + product
- Keep up to date on industry trends and maintain expertise

### Who we are looking for:

- Experience working directly with stakeholders and clients required.
- At least 5 years of professional experiences, within social sustainability, human rights, fair trade, similar fields or in eLearning project or program management
- Management experience preferred
- Excellent project management skills; remains focused on the deadlines and tasks assigned
- Demonstrated experience and knowledge on instructional design, developing learning materials, assessment/evaluation techniques
- Knowledge on learning management systems (LMS) will be helpful
- Ability to successfully manage competing priorities, keeping constant sight of the overall objectives
- Ability to work with minimal supervision and seek input when direction is unclear]]
- Excellent English skills, comfortable working fully in English both verbally and written
- Strong writing and communication skills
- High degree of flexibility in a demanding, fast paced & frequently changing environment
- Ability to exercise judgment in managing confidential or sensitive information
- Experience working with international companies or significant time overseas
- The role is remote, preference for candidates in Asia
